Explanation and Overview

The following Investment Policy Statement (“IPS”) is designed to capture an initial picture and evaluation of the Client’s current financial situation, including their investment portfolio and assets. From this and other information obtained through Client/ Advisor interviews and meetings, the Advisor will provide guidance and make recommendations to assist the Client in deciding what changes, if any, may be needed regarding their assets, allocations of their assets, and investment portfolio(s). The IPS will serve as a “document of understanding” between the Advisor and the Client, which will need to be updated periodically in order to remain relevant.

The IPS is designed to do the following:

1. Define the Client’s current financial situation.
2. Gather Client’s investment profile information, including risk/reward tolerances, goals, and expectations.
3. Define the duties and responsibilities of the Client, the Advisor, and the Investment Manager or Investment Committee (if different from Advisor).
4. State, in writing, the Client’s investment goals, objectives, and constraints.
5. Describe proposed investment strategies and styles to be used by Advisor, if applicable.

It is the **duty of the Client** to provide the Advisor with all requested current financial and/or other information to the best of his/her/their abilities. The Advisor will use this information to develop this IPS and the investment recommendations or strategy used for the Client’s portfolios. The Client will also be expected to update the Advisor with any changes to the requested information that occurs in the future. The Advisor cannot be held liable for any inaccurate information provided by the Client.

It is the **duty of the Advisor** to treat the Client with a Fiduciary standard of care, meaning the Client’s interests will always be at the forefront, ahead of any individual Advisor representative or the Advisor. The Advisor will use various methods, including this IPS and Client interviews, conversations, and meetings to collect the information needed to create this IPS document and to recommend an action plan of investment strategies and/or portfolio investments that are designed to accomplish the Client’s goals and objectives.

As stated above, this IPS will be used to gather statistical information about the Client to help the Advisor structure portfolios that are consistent with the Client’s policies and goals as delineated in discussions between the Advisor and the Client.
